

Hi Constable Class,

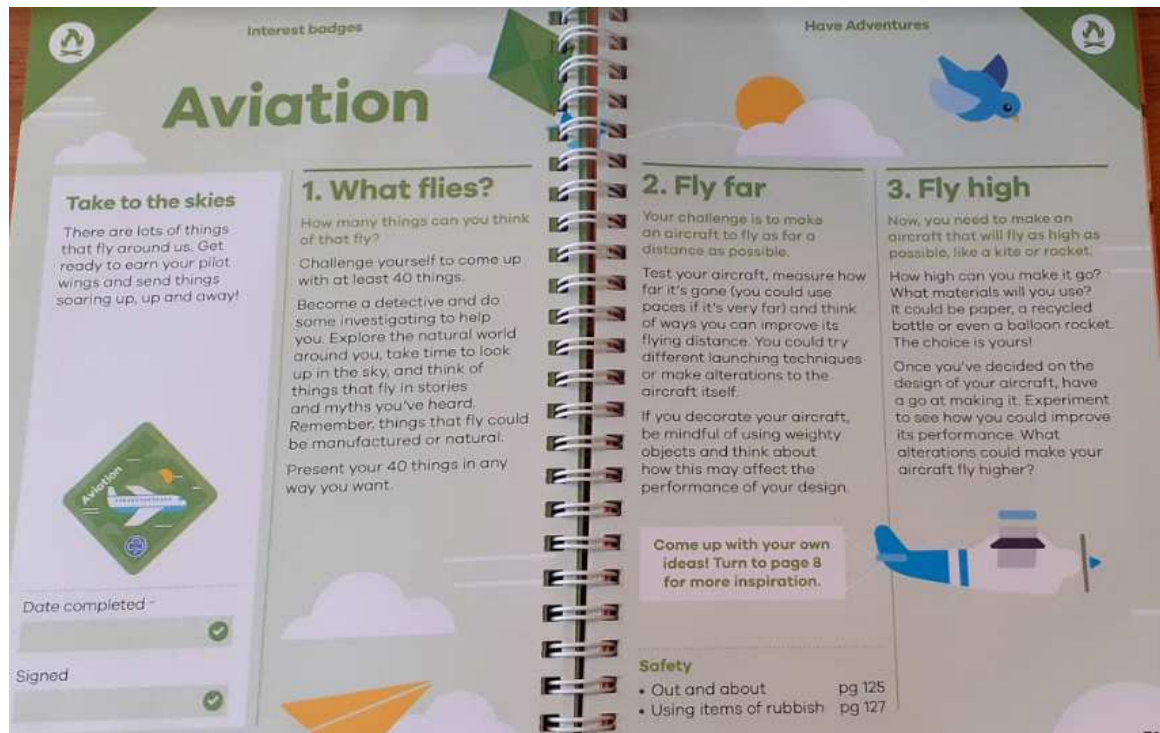

What wonderful weather we've been having! Isabelle and I have been enjoying the sunshine and spending lots of time in the garden. We've been making lots of dens and doing our work in the shade.

This week we've been working towards our Aviation badge. Isabelle thought of 40 things that can fly. They can be real or imaginary.

Today she's making a paper airplane with Gary. She has to measure how far it can fly and then see if she can improve the distance it has travelled. Maybe you might want to have a try too.

We've also been trying to relax and not worry about things. Isabelle has been learning how to do yoga from kids YouTube. She's had lots of fun having Mr Men facials and giving hand and neck massages.

We talked about what makes her feel happy and relaxed and she likes reading books, eating ice cream and being with her family. What makes you happy?

We spend a lot of time taking care of our flowers and Isabelle has grown lots of them from seed. Our tomato plants are really starting to grow tall in the green house. We're waiting for them to show yellow flowers. Maybe then we'll get some tomatoes.

Take care Constable class. This week should be lovely and sunny. So hopefully we'll be able to get out more and see some of our friends and family.

Have a great time

Mrs Fraser and Isabelle
