

Hello Dali class and Dali maths group

Well this coming week is half term children so at school we have decided to set activities mainly for outdoors and that are not so academic. Hopefully the weather will be nice and you will be able to enjoy getting out and being creative. You will find ideas and the Y5/Y6 note in the usual place on the school folder section of the website.

I have been busy getting things ready in school for those Y6 children who are able to return in June. It will be different but you are so sensible that I'm sure you will be super at working with the changes that have had to be made. Hopefully it won't be too long before Y5 can return also.

This past week I had a lockdown birthday. It will be one I'll never forget – so different getting presents and cards left on the doorstep while speaking to people at a distance. I did manage to have a birthday cake which was yummy. It was lovely getting surprises through the post.

This week I went out to trim a hedge that I have in the garden but only managed to do a partial cut because I discovered a nest with three beautiful blue mottled eggs in it. I've been keeping an eye on it and every so often a bird comes to settle in there. Luckily I have an old book given to me years ago that is all about birds eggs so I am hoping to identify the exact bird from that. I'll keep you posted.

Enjoy spending time with your family whatever you get up to at half term.

See you soon
Keep well and safe

Miss Askew
