

Hello Himid Class!

The birds were kind to me this week, they let me sit in my garden in peace. Other than enjoying the weather, I've been cooking and baking loads of new things! I made a home made chicken Parmesan and lotssss of desserts. Safe to say I could start working in the kitchen at school too! My favourite dessert so far has to be the Twix fudge – it was delicious and so easy to make!

I've really enjoyed seeing how creative you're all being during this hard time. The fact that you're still using your imagination to make the most out of our current situation makes me so proud. 😊

Once again, I'd like to thank everyone that has made an effort to email school and/or tweet wonderful pictures.

The Twitter account is **@HimidClass** for anyone that would like to tweet me personally!

I am always checking MyMaths and Spag.com and I have left the old tasks on there for those who still haven't completed them. I have also uploaded some new Spag.com and MyMaths tasks so please don't forget to check!

Let's continue to pray for the less fortunate and stick to the rules to ensure that everyone stays healthy, happy and safe. Make sure you appreciate this time with your loved ones too. 😊 I hope to see you all soon!!

Stay home and stay safe.

Miss Al-Saffar 😊 ☐
