

## Update for Critical Workers

In order to continue to support the workers who are critical in the fight against Covid-19 we are reviewing our provision in school We are aware that more people are now able to work from home and we would like to gather up to date information from families who still need our support. If you are a critical worker and have no other childcare and therefore will require your child to come to school on some or all days, please email school again today stating the **pupil's name, your name, your employer's name and your role**. Please also give an indication of the **days** on which you will need our help, (although we recognise that these can change over time.)Please write KEY WORKER on the subject bar.

Our thanks go to all those courageous people who are working to fight this pandemic and our prayers continue for all our families.
